

2018 HEALTH & WELLNESS SEMINARS

Investigating the Intersection of Health and Technology

Tuesday, August 21st, 2018

Time: 6:00 pm – 7:00 pm

**Norman Regional Hospital Education Center
901 N. Porter Ave., Norman, OK**

Healthcare is ever adapting with the continued advances in technology. Join Molly McCool-Hare, MHA Business Planning Specialist at Norman Regional as she speaks to a new service Norman Regional offers – Virtual Care. This service allows you to see a physician from your home, work, or anywhere within the state.

Additionally, Susan Pacific RD/LD, CDE diabetes education specialist will discuss the latest in technological advances for individuals with diabetes including continuous glucose monitoring.

Could technology provide the convenience you need to make caring for your health easier than ever before? Join us to find out.

All seminars are FREE and do not require registration.

If you need special arrangements for a disability or further information, contact the Nutrition and Diabetes Education Center at **405-307-5730**
